Hi-vis softshell with ARC protection (RWS)

The Toven hi-vis softshell protects you when exposed to electric arcs. The 3-layer laminated fabric is perfectly waterproof and keeps you warm during cold winter days. The standing collar, the concealed zipper under a flap with touch and close fastening and the sleeve narrowing protect you from the cutting wind. This softshell is also practical with one patched chest pocket with zipper, two inset pockets, one inside pocket and one loop for a gas detection meter.
