## Flame retardant, anti-static rain bomber jacket

Flame retardant and anti-static, these are the two most important properties of this water and windproof rain jacket. The Waverly is equipped with a sleeveless removable flame retardant fleece lining with inside pocket. Also on the inside of the Waverly there is a pocket, while the outside has three pockets, including one Napoleon pocket. The hood is stored away in the standing collar and the sleeves can be narrowed and secured with press studs. The elastic hem increases the wearing comfort of this light and supple rain jacket.

# Flame retardant, anti-static rain bomber jacket
